SERVICES CAPABILITIES

Your Partner in Infrastructure Excellence.

CITEX is a Texas-based civil engineering and materials testing firm. We deliver engineering design, construction inspection, materials testing, and QA/QC services across Texas and surrounding states.

From concept to completion.

Building Confidence Through Partnerships.

Trusted by public and private infrastructure leaders across the Gulf Coast region.

MEET OUR KEY STAFF

The Experts Behind Every Project.

Our team brings decades of combined experience in Civil Infrastructure projects including Civil Design, Construction Engineering & Inspection (CEI), Construction Materials Testing (CMT) and Special Inspections — backed by the certifications and technical depth for projects demand.

Omar Alhammouri

Principal

- 15+ Years Experience
- Infrastructure Industry Expert
- Business Growth Leader
- Operations Oversight
- Infrastructure Adviser - UN

Kyle Kilgore

Area Manager – CMT Operations

- 20+ Years Experience
- Public & Private Experience
- $30M+ Portfolio
- Energy Programs
- NICET Level III

S. Jay Loomis, P.E.

Sr. Project Manager/ Technical Director

- Licensed Texas P.E.
- 22+ Years Experience
- $2B+ Projects Managed
- TxDOT Certified
- FEMA Structures Expert

Travis Kilgore

Business Development Manager

- 20+ Years CMT
- TxDOT Projects
- Federal Programs
- Strategic Partnerships
- NICET Certified

Mammon Derbas, PMP

Sr. Project Manager

- 13+ Years Experience
- USACE Programs
- Marine Structures
- PMP Certified
- RMP Certified

Hailey Weber

Laboratory & Quality Manager

- Structural Engineering
- Lab Operations
- Quality Systems
- A2LA Compliance
- ACI Certified

OUR CAPABILITIES

Services We Deliver.

From engineering, field inspections, to materials laboratory testing, we cover the full scope of engineering and technical assurance services across multiple disciplines with global presence and local knowledge across public and private sectors.

Design & Engineering

- Feasibility & Planning Studies
- Utility Coordination
- Permitting
- Final Design Packages

Land / Site Development

- Site Analysis & Due Diligence
- Preliminary Engineering & Cost Estimating
- Utility Coordination
- Final Design Packages

Transportation Engineering

- Feasibility & Refinement Studies
- Schematics & Preliminary Design
- Pedestrian and Bicycle Facility Studies
- Final PS&E: Plans, Specifications & Estimates

Program & Construction Management

- Program Management Services
- Construction Inspection Oversight
- Schedule Control & Analysis
- Project Controls Management

CMT & Technical Assurance

- Concrete Testing Services
- Soil Testing Services
- Asphalt Testing Services
- Quality Assurance Programs

Digital Infrastructure Solutions

- GIS Web Applications
- Asset Management Platforms
- 3D Visualization & BIM Modeling
- Infrastructure Data Solutions

BUILT TO INDUSTRY STANDARDS

AASHTO · NICET CERTIFIED · AWS American Welding Society · ICC INTERNATIONAL CODE COUNCIL · ASTM INTERNATIONAL · aci

OUR FOCUS

Building Better Future Across Every Sector.

CITEX partners with public and private clients to plan, design, manage, inspect, and deliver infrastructure that connects communities, supports economic growth, and strengthens the built environment.

- Aviation & Transportation
- Hospitality & Tourism
- Infrastructure & Civil Works
- Critical Facilities
- Commercial & Mixed-Use
- Communities & Smart Cities
- Industrial, Energy & Utilities
- Sports & Entertainment
- Healthcare & Pharmaceutical
- Educational Facilities

ENGINEERING | CONSTRUCTION MANAGEMENT | TESTING | TECHNOLOGY
DELIVERING INFRASTRUCTURE SOLUTIONS ACROSS EVERY SECTOR.

Let's build something exceptional, together.
