FOR IMMEDIATE RELEASE · AMMAN, JORDAN · OCTOBER 5, 2026

CITEX joins the U.S. Chamber of Commerce business mission to Jordan

At “Jordan: A Regional Hub for U.S. Business,” CITEX met with Jordanian government leaders, private sector executives, and industry professionals on collaboration, investment, and infrastructure development.

AMMAN, JORDAN. CITEX USA was proud to take part in the U.S. Chamber of Commerce business mission to Jordan, building on our earlier meeting with the U.S. Ambassador to Jordan.

The program, “Jordan: A Regional Hub for U.S. Business,” was held with the American Chamber of Commerce in Jordan (AmCham-Jordan) and focused on growing the Jordan–U.S. economic partnership. It brought CITEX together with Jordanian government leaders, U.S. officials, private sector executives, and industry professionals to discuss opportunities for collaboration, investment, and infrastructure development.

The mission underscored our continued commitment to Jordan and the wider region. As CITEX continues to grow its reach, we look forward to bringing our expertise in construction materials testing, civil engineering, geotechnical services, and special inspections to support the development of safe, reliable, and resilient infrastructure in Jordan and across the region.

ABOUT CITEX

CITEX is a civil engineering and technical assurance firm and a CSI Global company, headquartered in Houston, Texas, with an accredited construction materials testing laboratory in Sugar Land. CITEX provides materials testing, special inspections, geotechnical services, and civil engineering for public and private clients.

Materials testing · Special inspections · Geotechnical · Civil engineering
